

## Big Events for 2025-26

We normally have two "BIG" overnights. Last year the docks in SF were under repair and our Submarine Overnight got bumped. So there's still a chance to hop on board for our September Overnight aboard the USS Pampanito, a WWII era submarine in San Francisco.

There's also the second Sacramento Zoo overnight date coming up in September. A lot of Pack Families went to the spring date, but it is a Scout Exclusive overnight and you are welcome to attend (Other Packs/Troops will be there)

The new BIG Overnight selected for this year is a trip to the Chabot Observatory in the Bay Area. This has always been an exciting favorite of Pack 1592 with an opportunity to learn about space, planets, asteroids and sleep overnight at the observatory.

If your favorite anticipated BIG overnight wasn't selected this year, don't worry! The committee will try to keep them rotating in the coming years so stay with Pack 1592 for future trips to favorites like the USS Hornet aircraft carrier, Monterey Bay Aquarium and more!
